All,

I have attached the agenda and alternatives map for the meeting on Tuesday. Please come to the meeting ready to present any information/concerns/data regarding your area of expertise (wetlands/waters/EJ) to the FHWA/TxDOT project team.

As a cooperating agency, we want to provide any information or data that will assist with EIS planning and development; that will help to avoid or minimize impacts to significant or important resources and to make sure the breadth and width of project impacts are thoroughly evaluated; to make sure the alternatives carried forward for review are the least damaging to the human and natural environment while also meeting the purpose and need.

See you in the Houston Toad room (9th floor) at 2:00 pm on Tuesday, October 18th.
